W HO has been for many years located in Tennessee as a Tuner and Regairer of Pianos, would respectfully call the attention of the musical public to the fact, that he visothers. He accordingly made an agreement with them who ear he is enabled to furnish Pianos at retail cost in New York, treight and charges added, so that every one who buys of him may know that he is not paying more for his acticle than he would be charged by the manufacturers the useives if he were to visit them in person. This House is making twenty Pianos per week, a much greater number than is made by any other in the United States, and for purity and volume of tone and fineness of finish, both in-side and out, the proof is that they stand wholly unrivalled. These Pianos were awarded the first premium by the juries of the World's Fair and the Fair of the American Institute in 1853. Among the many Musicians and Ama-teurs who have from time to time examined these Instruments, testified to their superiority, and recommended then to their friends, are Lowett.
